

BRUNOX®

Deo

FOR SUSPENSION FORKS

The suspension fork care, recommended by pros

„Before the race, my 'Magura' suspension forks were treated with 'BRUNOX® Deo' which is specially formulated for suspension forks. It ensures that the forks function perfectly.“

Michael Kalivoda
(3-time world champion MTB
24 hrs and world champion
MTB 12 hrs 2010)

BRUNOX® Deo for suspension forks
is recommended by **Rock-Shox®**.
It keeps seals flexible and
keeps dirt out.

BRUNOX® Deo provides optimal conditions for best performance. It maintains damper joints and adjustment screws and keeps knobs running smoothly. It cleans and seals crowns, dip and standing pipes. Apply a few squirts after cleaning, which will keep out the dirt and ensure optimal performance. After BRUNOX® Deo application gently push down the forks 3 times.

BRUNOX® Deo for suspension forks is also recommended by **SITTING BULL®** for maintaining suspended seat posts.

BRUNOX®

Turbo-Spray®

The only all-in-one
bicycle care with
«very good chain lubrication»

bike2/2010

BRUNOX® Turbo-Spray® has a unique quality thanks to the additive **TURBOLINE**.

It is so easy to use:

It is so easy to use. Wash dirt off and then spray all mechanical parts (chains, and levers) with BRUNOX® Turbo-Spray®. Let it work in for a while to remove persistent dirt (Muck, tar, brake dust, sand, etc.). Spray chains and levers again to achieve the maximum lubricating effect. Spray a fine mist over the frame or rub it down with a cloth soaked in BRUNOX® Turbo-Spray®, to polish the frame and protect it from corrosion and dirt.

BRUNOX® Turbo-Spray® makes service & maintenance even easier:

- Unbeatable Penetrating oil.
- Dust, sand and water repellant.
- Does not gum up or dry stickily.

Ideally suited to clean ball bearings of inline skates, bicycle chains, for the maintenance and lubrication of gearboxes, splitters, cable pulleys, brake callipers, dampers, throttle cables, etc.!

BRUNOX®

Turbo-Spray®

The only fluid tool
with
TURBOLINE

for everybody and anything

is

- cleaning agent
- chain cleaner
- lubricant
- penetrating oil
- corrosion protection
- polisher
- fittings spray
- slot spray
- contact spray

in absolute perfection!

- Best Winter grade chain lubricant.
 - Guarantees even in freezing temperatures that the gear and brake cables will work perfectly.
 - No Wax - PTFE or Silicone –
- (Fiets No. 10/2011)

The high-tech chain lubricant for pros is
 «all-weather-resistant»

BRUNOX® Top-Kett with its new formula is pure high speed!

Thanks to the precise lubrication, each chain joint can withstand high stress (such as pressure, dirt and moisture). It guarantees long lubrication intervals, easy chain management, effortless shifting and reduction of chain elongation. BRUNOX® Top-Kett is a unique concentrate with the high-tech Speedoline addition, a mix of lubrication accelerators and corrosion inhibitors. It forms a very uniform non-drying lubricant and corrosion protection film of up to 20 microns, which even salt water won't wash off and is resistant to spinning and ensures a perfect lubrication even at very low temperatures.

It is so easy to use:

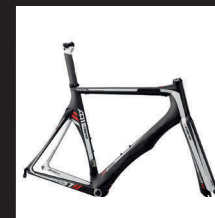

First clean the chain with BRUNOX® Turbo-Spray®, then lubricate the chain on the spot or spray it with the BRUNOX® LUB & COR® spray can.

BRUNOX® LUB & COR® is the solution in an AEROSOL CAN for any shop. BRUNOX® LUB & COR® also does a great job for winter storage in very damp rooms or in open understorey and long-term storage.

Classy care for
 CARBON

BRUNOX® CARBON CARE
 The ultimate solution
 for carbon products.

It is so easy to use:

Wash off any dirt with water, then spray all carbon parts with BRUNOX® CARBON CARE. Or soak a rag with it and rub the surfaces until no more dirt can be seen on the rag. Do not apply to the brakes.

- All carbon parts will shine brightly again in high tech perfection.

BRUNOX® CARBON CARE:

Cleans – polishes – displaces moisture – dust & dirt repellent, neutral against rubber, plastics, leather etc. and is also suitable to care for and maintain all ALUMINIUM components. Removes stains and handprints from aluminium, chrome and stainless steel.

- makes for bright shining parts
- prevents corrosion
- suitable for all non-anodised aluminium rims

All BRUNOX® bicycle products are free of:

- ACIDS
- PTFE
- SILICONE

Are used by pros:

- German Masters MTB
- German Masters BMX
- German Masters Down hill
- World cup 24-HRS. & 12-HRS. MTB
- Swiss Masters Radquer
- Swiss Masters Scratch & scores racing
